

*Palais de Monaco*

March 2020

The Principality is honoured to host the CC Forum "Investment in Sustainable Development".

The Monaco edition, with the participation of high-profile delegates and inspirational keynotes, will offer heated panel discussions and public debates on some of the most pressing issues mankind is facing today. The core agenda will focus on the urgent need for the preservation of our planet together with the nurturing of economic and social progress. Its main objective is to make a valuable contribution to building a new world paradigm - one that will set the narrative for more environmentally responsible business behaviours.

The CC Forum represents a leading global investment platform welcoming both institutional and private impact investors as well as some of the world's most innovative start-ups.

The current global situation requires creative, ethical and nuanced thinking. Therefore, policy makers, government strategists, entrepreneurs and international celebrities will gather at the CC Forum to shape coherent strategies for the preservation of the world as we know it and also to innovate for the challenges of the future.

I wish all participants a warm welcome to Monaco and fruitful exchanges.

Albert de Larosière
